

Production of combined boilers

Production of combined boilers

Relevance of the project

In the next 6-7 years, analysts predict positive dynamics for the combined boilers market. Increased efforts to reduce carbon dioxide emissions, coupled with the adoption of stringent energy efficiency standards for heating technologies, will further improve the combined boiler market.

Advantages of project implementation

According to Global Market Insights, Inc. The combined boiler market in 2019 was valued at more than 23 billion USD, with annual sales expected to exceed 11 million units by 2026. Increased investment in the installation of efficient space heating technologies, along with an increasing focus on limiting carbon emissions, will stimulate global demand for the product.

Import analysis

The total import volume of combined boilers in 2018 amounted to 69.1 thousand units. In monetary terms, this indicator was **18.3 million USD**. In 2019, the volume of imports amounted to 72.5 thousand units in quantitative terms, and in monetary terms - **21.3 million USD**.

Local partners

If necessary, assistance will be provided in the search and identification of local partners with production experience that are part of the Uzeltexsanoat Association.

Location of the project

Republic of Uzbekistan,
including in Free Economic
Zones

Key investment indicators

\$4.5 M	Estimated project cost	4 years	Payback period of the project	45	Number of new jobs created
---------	------------------------	---------	-------------------------------	----	----------------------------

Production volume and revenue

Product name	1 year		2 year		3 year		4 year	
	quantity (thousand units)	amount (in M USD)	quantity (thousand units)	amount (in M USD)	quantity (thousand units)	amount (in M USD)	quantity (thousand units)	amount (in M USD)
Combined boilers	10.0	5.0	20.0	10.0	40.0	20.0	50.0	25.0

Sales market

The local market of Uzbekistan, as well as neighboring Central Asian and CIS countries, are considered as the main markets for products.
